Reservations

To receive information or make a booking, simply contact us by phone, send us an email, reach out through the form on our website, or via our social media channels where you can stay updated on new initiatives or promotions..

Accessibility

The clinic is located on the first floor, equipped with an elevator, easily accessible due to the absence of architectural barriers. Any instructions for accessing the facility (e.g., in accordance with COVID-19 regulations), documentation, reports, or patient preparations will be communicated at the time of booking or sent via email.

Our story

The FUTUR Outpatient Clinic was established as an accredited sports medicine and physiotherapy outpatient clinic by the Marche Region. Over the years, it has acquired various medical specialties. The management team, staff, and practitioners aim to offer users the highest level of professionalism and expertise, focusing on their needs

Our strength lies in the wide range of services offered both in private practice, making it a comprehensive and effective specialist reference point for users' needs, and under the National Health Service (NHS) for sports medicine for competitive athletes under 18.

OUR GOAL

is to make excellent specialist medicine accessible to everyone at advantageous prices, thus reducing the distance between doctor and patient.

There will be no need to reach major cities to be assisted by top experts.

An early diagnosis and the subsequent targeted and prompt treatment can not only improve the quality of life but often save it.

Our aim for this year is to expand our team with new specialists and increasingly cutting-edge technologies.

What are we doing for others?

In our small way, we try to support local associations such as AIL in Ancona and Macerata, as well as the Salesi Foundation because:

To help those in need is not only part of duty, but also of happiness".
(José Martí)

Sports Medicine

Why choose Futur?

Because we have the best technologies to conduct your sports examination, such as Mortara, which allows for continuous ECG monitoring, not just at the beginning and peak of the stress test. In case further assessments are required, specialized visits or diagnostic tests can be performed at our center or affiliated facilities, thus facilitating the athlete's life!

Moreover, we conduct urine tests on-site, avoiding the need for additional bookings or travel.

Did you know that your child under 18 can undergo the competitive sports examination for **FREE** **HOW?**

Equip yourself with:

- Electronic prescription with the codes: 89.16 / TAB B / Exemption i01
- Request from the Sports Association certifying membership.

Book through the Regional Marche CUP 800.098798 or mobile network 0721/1779301.

What to do and bring at the time of the visit?

- Minors must always be accompanied by a parent/legal guardian.
- Identification document / health insurance card.
- Urine sample to be collected on an empty stomach or test results within 30 days.
- Vaccination booklet / tetanus vaccination status.
- For adults: Shaved chest (if applicable).
- In case of injuries / medical conditions, please inform at the time of booking for any necessary diagnostic tests.

Physical therapies:

- IONO/TENS/MAGNETO ELECTROSTIMULATION
- CO2 / Yag LASER
- SHOCK WAVES
- TECAR
- ULTRASOUND

Treatments:

- Orthopedic, neurological, and pediatric rehabilitation
- Pre-operative rehabilitation
- Functional rehabilitation
- Home physiotherapy - therapeutic exercises and postural training
- Athletic preparation / personalized plans
- Manual therapy
- Massage therapy
- Lymphatic drainage
- Osteopathy

PHYSIOTHERAPY

Thanks to the top national orthopedic specialists, Futur has always been a benchmark for excellence in orthopedics, traumatology, neurosurgery, and pediatric orthopedics. Our center offers all the best rehabilitative and electromedical therapies, aimed at both adult and pediatric orthopedic and neurological patients.

The rehabilitation gym is where you will spend most of your therapeutic journey. Sessions last for 60 minutes, although this timing may vary depending on the patient's condition or age.

Adjacent to the gym, there are 3 treatment rooms where physical therapies are carried out, and two outpatient clinics dedicated to Physiotherapy..

Price List

NB. The price list is exempt from stamp duty. Prices may be subject to changes; at the time of booking, we always communicate the updated prices.
